

A Chautauqua Feature

CHIMES OF NORMANDY

The last day of Chautauqua week will be the best. It marks a great step in advance. No Chautauqua has ever scored a greater success than that of securing popular opera for its platform. The "Chimes of Normandy," that most popular production by Robert Fanchette, will be presented with a full cast and with an orchestra constituting one of the greatest entertainments ever offered. The Company will give a concert also in the afternoon.

The Engineer Says:—

10 Cents

I am a mining engineer.

My address is anywhere from Alaska to South America.

If you visit me you will live hard and eat plain.

But I'll give you a big welcome and the best cigarette you ever smoked—"Helmar" Turkish Cigarettes.

"Helmar" is always in my pocket and in my shack.

The mildest tobacco for cigarettes is Turkish.

The best tobacco for cigarettes is Turkish.

Don't pay ten cents for anybody's cigarette until you have tried "Helmar," a fascinating, elevating, gentleman's smoke.

What Is Good Rope.

Rope is sold by the pound, so there is always the temptation for a dishonest manufacturer to "load" his product with an excess of oil or other material or to make the coil a trifle short. The consumer then pays the full rope price for oil, etc. Then, too, much so called manila contains a percentage of inferior fiber such as sisal and has neither the strength nor wearing qualities that it should. Ten tests do not tell the story, for some of the adulterants are almost as strong as manila, but the strength of poor rope falls off rapidly with use.

Open the strands and look at the inside of an old rope for signs of wear, as it wears faster there than on the outside. When a rope passes over the sheave of a block or around a cleat the strands slide a little on each other, and the inner fibers gradually pulverize. Good manila fiber is light colored, fine, silky and strong. Rope made from it is smooth, with few ends of fiber sticking out.—Outing.

put for postage stamps.

"This morning a woman was here browsing around. She looked over the entire stock. I thought I had a customer. After she finished the rounds she remarked: 'Oh, I nearly forgot. Have you any postage stamps?' I said yes and asked her how many she wanted. She handed me a wrapped newspaper and asked how much I thought it ought to have to carry it to its destination. I weighed the darned thing and told her a cent would be sufficient. 'Is that all?' she said. 'Well, I have a one cent stamp in my pocketbook. I thought it would come to more. Thank you very much.'—Richmond Times-Dispatch.

He Who Shirks His Work.

The man who shirks his work, who treats the service of labor with indifference, who sacrifices his efficiency on the altar of self-indulgence, looks on his job and plans to see how little he can do and not be caught, is to be the most pitied man on the face of the earth.

He thinks he is cheating his employer. But the employer is not the man he is cheating. Far from it. He is cheating himself. More than cheating himself, he is assassinating opportunity and paving the way to utter ruin and disgrace.

The man who cannot be trusted with labor for which he is honestly paid is just as despicable as the man who refuses to pay for labor honestly performed. The shirker is essentially dishonest. Unfaithful to himself, setting the bomb that will sooner or later send him to poverty, he is a menace and an abomination.—Layton Journal.

Cleaning a Teapot.

To clean the inside of an enameled teapot, first fill the teapot with water and a handful of soda. Put it into a warm oven in the evening and let it remain there. In the morning empty it and rub around with a flannel and the inside will be as white as when the teapot was new.
